100 Word:

Pitchdrop is a cover band built around dual male and female lead vocals and a six-piece lineup that spans rock, soul, funk, and dance. The band is known for sets that move — structured to build energy across the night rather than just run through a playlist.

Fronted by two vocalists with distinctly different ranges and lanes, Pitchdrop covers ground that most bands can't — from classic rock anthems to iconic soul and R&B hits — without losing the thread of a cohesive live show. Based in Connecticut, the band plays live venues and private events throughout the state and the Northeast.
